PROFESSIONAL SUMMARY

Business Analyst with a strong foundation in data analytics and project coordination, experienced in turning operational data into clear insights that improve processes and decision-making. Skilled in requirement gathering, process mapping, and stakeholder communication, with hands-on experience using data to identify gaps and drive measurable improvements.

My background combines analytics, operations, and structured project delivery. I have improved data accuracy, reduced recurring operational issues, and supported teams with actionable insights using tools like Excel, SQL, Python, and Power BI. With PRINCE2 certification and working knowledge of Agile practices, I bring a structured and practical approach to solving business problems.

CORE COMPETENCIES

Business Analysis

- Requirement Gathering and Documentation
- Process Mapping and Workflow Analysis
- Stakeholder Analysis and Communication
- Business Process Improvement
- Gap Analysis and Problem Solving

Data Analytics

- Data Cleaning and Validation
- Exploratory Data Analysis and Trend Identification
- KPI Tracking and Performance Reporting
- Dashboard Development and Data Visualization

Project Management

- Task and Timeline Coordination
- Risk Identification and Tracking
- Agile and Waterfall Methodologies
- Workflow Management and Delivery Tracking

HSE and Operational Improvement

- Risk Assessment and Hazard Identification
- Process Safety Awareness
- Compliance Monitoring and Reporting

TECHNICAL SKILLS

- Analytics Suite: Python, Excel, Power BI, SQL
- BA Toolbox: Miro, Confluence, Requirement Gathering, Process Mapping, Stakeholder Analysis
- PM Tools: Jira, MS Project, Primavera, PRINCE2, Agile
- Other Tools: Google Workspace, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

PM4Success International | Port Harcourt

Associate Data Analyst / Project Support / HSE Operations

2024 – Present

- Analyzed operational and project data using Excel, SQL, and Power BI to generate insights that improved reporting efficiency by over 40%.
- Gathered and documented requirements for internal projects, ensuring alignment between stakeholders and project objectives.
- Mapped workflows using Miro to identify inefficiencies and improve process clarity across teams.
- Tracked tasks and deliverables using Jira and ClickUp, improving visibility and ensuring timely completion of project activities.
- Supported risk assessments and operational reviews, helping teams identify and address gaps early.
- Prepared structured reports and dashboards that supported data-driven decision-making.

NOVA Track Limited

Operations Data Analyst / Field Engineer / HSE Lead

2014 – 2024

- Analyzed GPS and operational data to identify performance gaps, reducing recurring operational issues by 20–30%.
- Improved data accuracy from 75% to over 90% through structured validation and reporting processes.
- Collected, cleaned, and maintained large datasets for tracking and operational reporting.
- Worked closely with stakeholders to understand operational challenges and provide data-backed solutions.
- Supported process improvements in field operations, reducing delays and improving system reliability.
- Conducted hazard assessments and ensured safer execution of field operations, improving compliance and reducing risk exposure.

Dexterous Applied Training Institute | Port Harcourt

HSE Intern

- Supported data collection and documentation for safety inspections and training activities.

- Assisted in risk assessment processes and incident reporting, improving documentation accuracy.
- Maintained structured records and reports for monitoring and review purposes.

PROJECT HIGHLIGHTS

- Car Sales Price Analysis (Python, Excel)
Cleaned and analyzed vehicle data to identify pricing trends, helping improve pricing decisions and reduce underpricing risks.
- Biometrics Attendance and Payroll Analysis (Excel)
Developed an automated system that improved payroll accuracy and reduced manual errors significantly.
- Election Data Analysis (SQL, Excel)
Analyzed voting data to identify patterns and strongholds, supporting targeted decision-making strategies.
And many others (visit portfolio for more)

EDUCATION

- B.Sc. Computer Science
Nnamdi Azikiwe University, Awka

CERTIFICATIONS

- PRINCE2® Foundation in Project Management
- Google Data Analytics Professional Certificate
- IBM Data Analytics Certificate
- Meta Data Analytics Certificate
- Microsoft Data/Business Analytics Certificate
- NEBOSH International General Certificate

ACHIEVEMENTS

- Reduced recurring operational issues by up to 30% through data-driven analysis and process improvement
- Improved data accuracy and reporting reliability from 75% to over 90%
- Increased reporting efficiency by over 40% through structured dashboards and data processes

SOFT SKILLS

- Analytical Thinking
- Attention to Detail
- Clear Communication
- Problem Solving
- Stakeholder Engagement
- Time Management and Organization
- Collaboration
